DETAILED ACTION

Election/Restriction

1. Applicant's election without traverse of the invention of Group I, claims 1-43 and 57, in the reply filed July 12, 2004 is hereby acknowledged.
2. The cancellation of non-elected claims 44-56 by applicant in the reply filed July 12, 2004 is hereby acknowledged, the direction to "withdraw" these claims having been construed as intent to "cancel," since only the Office can "withdraw" claims from further consideration.

Response to Amendment

3. The amendment submitted July 12, 2004 fails to comply with 37 CFR 1.121(c) because it presents cancelled claims 44-56 as "withdrawn" instead of --cancelled--. The necessary correction has been made and the paper entered, but all future amendments must comply with 37 CFR 1.121.

Claim Objections

4. Claims 4-43 and 57 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim cannot depend from any other multiple dependent claim. See MPEP § 608.01(n). Accordingly, the claims have not been further treated on the merits.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Harrington (US 5,895,454).

Harrington discloses a method of establishing a customized electronic site 20 for the purposes of providing products 30, the method comprising: (a) obtaining over a network information specifying criteria 32 for the customized electronic site 20, wherein the criteria include a selection of products 30 and descriptions; and, (b) using the information to automatically establish a customized electronic site 20.

Regarding claim 2, the method of Harrington includes that the information is obtained by a primary electronic site 21.

Regarding claim 3, the method of Harrington includes that automatically establishing a customized electronic site 20 includes automatically establishing a database 10 containing the specified criteria 32.
